Product Features

Premium Quality Virgin Human Hair:

The Emeda #714A wig is made from 100% virgin human hair, which ensures a natural look and feel. Virgin hair is unprocessed and free from any chemicals, maintaining its natural strength, elasticity, and shine.

Luxury Blonde Color:

The luxurious blonde color of this wig adds a touch of sophistication and glamour. The shade is carefully chosen to complement various skin tones, providing a radiant and youthful appearance.

Lace Top Construction:

The wig features a lace top construction, offering a realistic scalp appearance and allowing for versatile parting options. The lace material is soft, breathable, and blends seamlessly with the scalp.

Bleached Knots:

The knots on this wig are bleached according to kosher standards, which ensures that the wig looks natural without compromising on ethical standards. The bleached knots create an illusion of hair growing directly from the scalp.

Breathable Cap:

The cap of the wig is designed to be breathable, providing comfort even during extended wear. The breathable design ensures proper ventilation, preventing heat build-up and keeping the scalp cool.

Adjustable Straps and Combs:

The wig comes with adjustable straps and combs for a secure fit. The adjustable straps allow you to customize the fit according to your head size, while the combs provide additional stability.

Benefits

Natural Appearance:

The combination of virgin human hair, luxury blonde color, and bleached knots ensures that the wig looks incredibly natural. It mimics the appearance of natural hair, making it difficult to distinguish from your own.

Versatility:

The lace top construction allows you to style the wig in various ways. You can part the hair in the middle, on the side, or pull it back for a different look. The versatility of this wig makes it suitable for various occasions, from everyday wear to special events.

Comfort:

The breathable cap and lightweight design ensure that the wig is comfortable to wear for long periods. The soft lace material and adjustable features add to the overall comfort, making it an ideal choice for those with sensitive scalps.

Durability:

Made from high-quality virgin human hair, the Emeda #714A wig is durable and long-lasting. With proper care, this wig can maintain its appearance and quality for a long time, providing excellent value for money.

Ethical Standards:

The use of kosher bleached knots ensures that the wig meets ethical standards. This feature is particularly important for those who prefer products that adhere to specific ethical guidelines.

Styling and Maintenance

Styling Tips:

The Emeda #714A wig can be styled just like your natural hair. You can use heat styling tools such as flat irons, curling irons, and blow dryers to achieve your desired look. However, it is recommended to use heat protectant products to minimize damage to the hair.

The wig can be trimmed and customized by a professional stylist to suit your face shape and personal preferences. Layers, bangs, and other styles can be added to create a unique and personalized look.

Washing and Conditioning:

Regular washing and conditioning are essential to maintain the quality and appearance of the wig. Use sulfate-free and gentle shampoos and conditioners to prevent drying out the hair. Avoid using hot water, as it can damage the hair and lace material.

After washing, gently squeeze out excess water and allow the wig to air dry on a wig stand. Avoid rubbing the hair with a towel, as it can cause tangling and frizz.

Storage:

Proper storage is crucial to maintain the shape and quality of the wig. Store the wig on a wig stand or mannequin head to prevent tangling and deformation. Keep the wig in a cool, dry place away from direct sunlight and heat sources.

Avoiding Damage:

To avoid damage to the wig, handle it with care and avoid excessive pulling or tugging. When not in use, store the wig properly to prevent tangling and maintain its shape. Use wide-tooth combs or wig brushes designed for human hair wigs to detangle the hair gently.

Advanced Features

Customizable Hairline:

The Emeda #714A wig features a customizable hairline, allowing you to achieve a natural look that suits your face shape. You can pluck the hairline to create a more realistic and personalized appearance.

Pre-Plucked Baby Hairs:

The wig comes with pre-plucked baby hairs along the hairline, adding to the natural look. These fine hairs mimic the appearance of new hair growth, making the wig look even more realistic.

Heat Resistance:

The virgin human hair used in the wig is heat-resistant, allowing you to use styling tools without damaging the hair. This feature provides the flexibility to change your hairstyle frequently while maintaining the quality of the wig.

Color and Highlights:

While the wig comes in a luxurious blonde color, it can also be customized with highlights or lowlights to add dimension and depth. This option allows you to achieve a unique and personalized look that complements your style.

How to Install the Wig

Preparation:

Before installing the wig, ensure that your natural hair is clean, dry, and properly braided or flattened. This step helps to create a smooth surface for the wig to sit on, preventing bumps and ensuring a secure fit.

Applying the Wig Cap:

Wear a wig cap to cover your natural hair and create a seamless base for the wig. The wig cap also helps to protect your hair and keep it in place during wig wear.

Securing the Wig:

Place the wig on your head, starting from the front and adjusting it to fit comfortably. Use the adjustable straps and combs to secure the wig in place. Ensure that the lace lies flat against your scalp for a natural look.

Cutting the Lace:

Carefully cut the excess lace along the hairline, being cautious not to cut too close to the hair. This step is crucial for achieving a natural hairline and seamless blend with your skin.

Styling:

Once the wig is secured, you can style it as desired. Use a wide-tooth comb or wig brush to detangle the hair gently. You can use heat styling tools to create curls, waves, or straighten the hair. Finish with a light hairspray to hold the style in place.

Tips for Long-Lasting Use

Regular Maintenance:

Regular maintenance is essential to keep your wig looking its best. Wash and condition the wig as needed, and always use products specifically designed for human hair wigs. Avoid using harsh chemicals or sulfates that can damage the hair.

Avoid Excessive Heat:

While the wig is heat-resistant, it is advisable to avoid excessive heat exposure. Use styling tools at a moderate temperature and always apply a heat protectant before styling.

Gentle Handling:

Handle the wig with care to prevent tangling and shedding. Avoid pulling or tugging on the hair, and always use a wide-tooth comb or wig brush designed for human hair wigs.

Proper Storage:

Store the wig properly when not in use. Use a wig stand or mannequin head to maintain the shape and prevent tangling. Keep the wig in a cool, dry place away from direct sunlight and heat sources.

Frequently Asked Questions

1. What makes the Emeda #714A Luxury Blonde Lace Top Wig stand out from other wigs?

The Emeda #714A wig is crafted from premium virgin human hair, featuring a sophisticated blonde color and kosher bleached knots for a natural appearance. Its superior quality, comfort, and versatile styling options set it apart as a top choice for discerning customers.

2. Can the Emeda #714A wig be styled and maintained like natural hair?

Yes, the wig can be styled using heat tools and maintained with care like natural hair. It offers flexibility in styling, allowing you to achieve various looks for different occasions.

3. Is the Emeda #714A wig comfortable to wear for extended periods?

Yes, the wig is designed with comfort in mind. It features a lace top that allows for breathability and a secure fit, making it suitable for extended wear without discomfort.

4. What ethical standards does the Emeda #714A wig adhere to?

The Emeda #714A wig meets ethical standards in hair sourcing and production practices. It uses virgin human hair and follows kosher bleaching processes, ensuring ethical and sustainable practices throughout its manufacturing.

5. How often should I wash my wig?

It is recommended to wash your wig every 8-10 wears or whenever it appears dirty or dull. Regular washing helps to maintain the quality and appearance of the wig.

6. How do I prevent tangling?

To prevent tangling, gently detangle the wig with a wide-tooth comb or wig brush before and after each wear. Avoid sleeping with the wig on and store it properly when not in use.

7. Can I swim with the wig on?

It is not recommended to swim with the wig on, as chlorine and saltwater can damage the hair and lace material. If you need to swim, consider wearing a swim cap to protect the wig.

8. How long does the Emeda #714A wig typically last with proper care?

With proper care and maintenance, the Emeda #714A wig can last for a considerable period. The lifespan may vary depending on usage and care routines, but its high-quality craftsmanship ensures durability.
