## Application and Use

Applying the Dread lock Toupee Full Lace with Natural Hairline is a straightforward process. Here's a step-by-step guide:

1. **Preparation:** Begin by preparing your scalp. Ensure it is clean and free from oils and residues. This will help the adhesive bond more securely.
2. **Adjust the Toupee:** Place the toupee on your head and adjust it to fit your natural hairline. Trim any excess lace around the edges for a perfect fit.
3. **Apply Adhesive:** Apply a thin layer of adhesive to the perimeter of the lace base and to your scalp where the toupee will sit. Allow the adhesive to become tacky.
4. **Secure the Toupee:** Carefully place the toupee on your head, starting from the front hairline and moving towards the back. Press down firmly to secure the bond.
5. **Style as Desired:** Once the toupee is in place, you can style the dread locks as desired. Use gentle styling products and avoid excessive heat to maintain the integrity of the hair.

## Maintenance Tips

To ensure the longevity and appearance of your Dread lock Toupee Full Lace with Natural Hairline, follow these maintenance tips:

- **Regular Cleaning:** Wash the toupee regularly using sulfate-free shampoo and conditioner. Avoid rubbing the dreadlocks vigorously to prevent them from unraveling.
- **Proper Drying:** Allow the toupee to air dry whenever possible. If using a blow dryer, use a low heat setting to avoid damaging the hair.
- **Moisturize:** Keep the hair moisturized by applying a leave-in conditioner or hair oil. This will help maintain the softness and shine of the hair.
- **Avoid Excessive Heat:** Minimize the use of heat styling tools. If necessary, use a heat protectant spray to safeguard the hair.
- **Secure Storage:** When not in use, store the toupee on a mannequin head or in a breathable bag to maintain its shape and prevent tangling.

## Extended Care Tips

**1. Deep Conditioning:** Incorporate deep conditioning treatments into your hair care routine to keep the hair soft and manageable. Apply a deep conditioner or hair mask to the toupee once every two weeks. Leave the treatment on for at least 30 minutes before rinsing thoroughly with cool water. This helps to restore moisture and shine to the hair, preventing dryness and frizz.

**2. Night Care:** Protect your toupee while you sleep by wearing a satin or silk bonnet. Alternatively, you can sleep on a satin or silk pillowcase. These materials reduce friction, which helps prevent tangling and breakage. Braiding the hair loosely before bed can also help maintain the dreadlocks' shape and prevent them from becoming frizzy.

**3. Regular Maintenance:** Schedule regular maintenance sessions with a professional hairstylist who has experience with lace toupees and dreadlocks. They can help with re-tightening any loose dreadlocks, cleaning the lace base, and providing professional treatments to keep the hair in top condition. Regular check-ups ensure that your toupee remains secure and looks its best.

## Environmental Considerations

**1. Sun Protection:** Extended exposure to the sun can cause the hair color to fade and the hair itself to dry out. When spending time outdoors, especially in sunny weather, consider wearing a hat or scarf to protect your toupee from UV rays. Additionally, there are hair products available with UV protection that can help shield the hair from sun damage.

**2. Humidity and Weather:** Humidity can affect the appearance of your dreadlocks, causing them to swell or frizz. During humid weather, use anti-frizz serums or sprays to keep the hair smooth and manageable. Conversely, in dry and cold weather, make sure to moisturize the hair more frequently to prevent it from becoming brittle and breaking.

## FAQ

1. How long does the Dread lock Toupee Full Lace with Natural Hairline last?

The longevity of the toupee depends on how well it is maintained. With proper care, it can last from six months to over a year. Regular cleaning, conditioning, and careful handling will extend its lifespan.

2. Can I swim or shower with the toupee on?

Yes, you can swim and shower with the toupee on, but it's recommended to use a swimming cap to protect the hair from chlorine or saltwater, which can be drying and damaging. After swimming, rinse the toupee with fresh water and apply a leave-in conditioner.

3. How do I choose the right color and length?

We offer a wide range of colors and lengths. To choose the right color, we recommend matching it to your natural hair color or opting for a shade that complements your skin tone. For length, consider your lifestyle and the look you want to achieve. Shorter lengths are easier to manage, while longer lengths provide a dramatic effect.

4. How do I apply and remove the toupee without damaging my scalp or the lace?

To apply, use a skin-safe adhesive or tape, and ensure your scalp is clean and dry before application. To remove, use a specially formulated adhesive remover to gently lift the lace without pulling. This minimizes the risk of damage to both your scalp and the lace.

5. Can the dreadlocks be styled differently or dyed?

The dreadlocks can be styled in various ways, including updos and ponytails. However, while the hair can be dyed, it's recommended to have this done by a professional to avoid damage. Over-processing can weaken the hair and affect its longevity.
